Dear Recruiter,

I am writing to express my interest in applying for the position of Data Engineering Intern at your firm for 2022.

I am a master student in Big Data Analytics with curiosity in learning new things. My university degree and data science skills give me an excellent combination of expertise including machine learning, data structure, data visualization, applied probability and statistics, project management, devops for cloud, communication, teamwork, and much more. Along with my curriculum my curiosity and passion towards data made me to explore new things such as natural language processing and building a ETL pipeline using Azure Data Factory and Azure Databricks , Building CI/CD pipelines in jenkins. I believe my passion and expertise would be a great asset to your team. Do have a look at my resume to find out more.

You will find me a friendly, energetic, and reliable person. In a fast-paced working environment, I am a man with focus, commitment, and fast adaptability, which I hope I can put to good use at your firm. I would love to bring my passion, skills, and knowledge to your firm. I can cause a positive contribution to the future of The Company.

In short, I am a great candidate for this position. I would be delighted to continue discussing the various ways in which I could contribute to your firm. So please get in touch with me by telephone or by email and I would be happy to attend an interview at your convenience.

I would like to thank you for taking the time to consider my application.

Yours sincerely,  
Suhas Nair
